

Safe Sanctuary Memorial Drive UMC

OUR CALLING IS TO ENSURE SAFE SANCTUARY
FOR ALL GOD'S PEOPLE

Throughout the gospels, Jesus provides teachings on providing a peaceable kingdom for all of God's people, including our most precious gifts, our children and youth (Matthew 5:9, Luke 18:15-17).
The peaceable kingdom begins with sanctuary.

Thank you for volunteering or working
with children, youth, or vulnerable
persons at Memorial Drive United
Methodist Church

Memorial Drive United Methodist Church recognizes the need to have a policy to help prevent abuse of children and youth and to help protect **YOU**, our volunteers and workers.

What is Safe Sanctuary?

Safe Sanctuary is an intentional expression in making congregations safe places where children, youth, and elders may experience the abiding love of God and fellowship within the community of faith.

Because we believe that Jesus taught us to care for His children and youth, we commit our church to the practice of safe supervision. A Safe Sanctuary policy sets standards for the supervision of the children, youth, and vulnerable adults in our care. Thus, in covenant with all United Methodist congregations, we adopt policies for the prevention of neglect and abuse.

Therefore, as Christian communities of faith and United Methodist congregations, we pledge to conduct the ministry of the gospel in ways that assure the safety and spiritual growth of all children, youth, and vulnerable adults and those who minister to them.

- Remove **with dignity** the person suspected of abuse from further contact with children/youth.
- The directors will then make sure an appropriate investigation will take place, including authorities if needed. Directors will carefully document the incident in writing from all parties involved. The goal is to provide supportive care to both the victim and the respondent. Supportive care can include the procedures of the criminal justice system, provisions of the current United Methodist Book of Discipline, appropriate counseling, referrals and continued pastoral visitation. *Confirmed reports of proven incidents of abuse will be confidential.* It is the responsibility of each individual involved in an alleged incident to follow all legal requirements. This may include calling 911 when needed. The Department of Protective and Regulatory Services can be reached at 800-252-5400

SAFE SANCTUARY PROCEDURES

LEADERSHIP BY EXAMPLE- All individuals assuming any position of leadership must be Safe Sanctuary certified.

TWO BY TWO- There shall be two leaders present when children are present.

LINE OF SIGHT- If for some reason you find yourself in a situation where you are alone with a group of children, make sure that you are visible to others.

SAFETY IN NUMBERS- Avoid situations in which you are alone with a child. If for some reason there is no other adult available, make sure there are numerous children in attendance rather than a one-on-one situation. There may be times when a non-trained or non-background checked individual will be allowed to temporarily work with children. This is allowable only when Safe Sanctuary certified individuals are in attendance and monitoring the situation.

PROCEDURES CONTINUED...

RESTROOM ASSISTANCE- Most downstairs classrooms are equipped with a restroom right in the classroom. If a child should need toilet assistance, please leave the door ajar while you assist the child. For classrooms without a restroom, children in 1st grade and up may be sent to the restroom in pairs. If an adult needs to accompany the child, please remain outside the restroom in the hallway while the child is in the restroom. Should a situation arise in which an older child (1st grade and older) needs direct assistance, enlist the help of another adult so that two adults are present with the child. If this is a situation which is likely to be “ongoing,” (such as with a child with special needs), a more permanent system can be put into place.

FIRE ALARMS-Take a class roster if available and make a headcount before you exit. Evacuate as directed or simply move as far away from building as possible. Once outside, count heads again. Do not return to building until the all clear signal has been given. (do not go to playgrounds)

HEALTH EMERGENCIES First aid kits are located in numerous areas. If you call 911, please try to get word to a staff member or adult volunteer who can go to the parking lot to guide the emergency personnel to the correct location. Even if an accident is minor, please fill out an injury report form and turn it in to the Children’s Ministries Office.

APPROPRIATE DISCIPLINE Children should be made aware that appropriate behavior is expected. Gentle reminders are always necessary when dealing with children. When these reminders don't work, then discipline needs to move to the next step. In no case is physical discipline an appropriate measure to deal with problems except in the rare situation of having to gently restrain a child who is threatening harm to him/herself or to other.

APPROPRIATE PHYSICAL AND EMOTIONAL BOUNDARIES

Physical-Obviously these boundaries change, as children grow older. A young child sitting in the lap of a caregiver is most appropriate whereas an older child or youth sitting in a leader's lap would not be acceptable. Hugs and kisses from a toddler to a leader are very appropriate and much different than the same from a youth.

Emotional- It is important for those working with children and youth not step outside of those lines and allow the younger person to become too attached to them. When a leader recognizes that there might be an issue with these boundaries they should allow great space to come between them and the child in question. If that does not solve the problem then the Director should be notified.

REDIRECT INAPPROPRIATE BEHAVIOR

- Children should have good behavior recognized and encouraged.
- Children should be taught by example through the use of fair and consistent rules.
- Children's behavior should be anticipated. If children are beginning to become unruly, it is time switch activities or to capture their attentions elsewhere.
- Children should be disciplined in a way that is relevant to the behavior involved.
- Children should be given directions that are clear and on their level of understanding.
- Children should be redirected by stating alternatives when their behavior is unacceptable.
- Children should be helped to understand why their conduct is not acceptable.

Working with youth

Assume all policies previously listed should be applied when working with youth unless specified otherwise in the next slide.

SAFETY IN NUMBERS Understanding that there is safety in numbers, one leader can be in contact with multiple youth (7th-12th grade). One on one contact with youth in a closed environment is of concern.

SUPERVISION OF YOUTH proper supervision will demand multiple adults at youth events. However, there are times where small groups divide from the larger group and only one adult will be present with multiple youth in these settings. Remembering that there is safety in numbers, this is permissible as long as there is no one-on-one contact with adults and youth.

AGE RESTRICTIONS Students under the age of twenty-one, are not considered adults and will not be considered “in charge” of youth. They will be considered assistant leaders and can work with an adult. Each college counselor will be Safe Sanctuary Certified and will be expected to follow the same guidelines and requirements of an adult

OVERNIGHT ACCOMMODATIONS At events that require overnight accommodations, at least (2) counselors should be present in every room. When staying in a hotel, adults shall sleep in separate rooms from youth; or if necessary for youth to share a room with an adult, adults shall sleep in separate beds from youth so long as any one adult shall not be alone with any one youth. Recognizing accommodations may be restrictive in some cases one adult is adequate, so long as any one adult shall NOT be alone with any one youth.

Here are tips for avoiding incidents of harassment:

1. Treat everyone with respect and therefore set a good example for the children and youth of our church.

2. Stick to handshakes. If you are going to hug someone, stick to the side-to-side hug which avoids any frontal contact. Take into account the ages involved. Hugging a preschooler may be the most natural thing in the world whereas hugging an older child, youth or adult can be problematic

3. Ask yourself: Is there equal initiation and participation between me and the person I am interacting with? If not, back away.

4. Read other people's verbal and physical cues. When in doubt about physical contact or what you want to say to another individual, back away or stay silent at least for the time being.

5. Be aware of other people's personal space. Don't lean in too closely or whisper in another person's ear.

6. Avoid the use of any sexualized language such as "sexy," "hot," and even more common language such as "beautiful," "gorgeous," etc. Avoid comments of a personal nature such as "That dress gives you the most gorgeous hour-glass figure" or "You look good enough to eat." It's best to avoid compliments if there is any doubt in your mind at all as to how the compliment will be received.

7. Remember: It's not the intent that matters. It's how it is received that is the issue.

The Safe Sanctuary Executive Committee

This Committee will be called upon when needed to make tough decisions in adhering to Memorial Drive United Methodist Church's Safe Sanctuary Policies and Procedures. Annually, Safe Sanctuary Policies and procedures will be reviewed. Both MDUMC staff, laypersons, and pastors will be on this committee.
